

Impact Aid Grant System User Guide

Section 7002 FY 2023 Applications and the Supplemental Impact Aid Flexibility Act

Published January 25, 2022

The Supplemental Impact Aid Flexibility Act permits applicants for FY 2023 Impact Aid grants the flexibility to use certain data from their final FY 2022 application rather than data from a more recent school year.

These instructions are for LEAs who have not submitted the application. LEAs who have submitted the initial application but would like to take advantage of the Supplemental Flexibility Act will have the opportunity to amend their application after the regular application deadline of January 31, 2022. We are working on making this functionality available on the amendment; we will provide a notification via listserv, website announcement, and email to IAGS users when it is possible to submit an amendment that uses the below flexibility. The amendment deadline is June 30, 2022.

The table below lists the data elements required in the application, all of which are covered by the new flexibility. Section 7002 applicants may not “mix and match” data sources. Instead, applicants must choose to use either ALL data from their final FY 2022 application (column A in the chart below) or fill out the FY 2023 application as usual (column B in the chart below).

	Column A	Column B
	Using New Flexibility: Copy All Data from the Reviewed FY 2022 Application	Using Standard Data Sources: FY 2023 application, as usual
Table 1 – Eligible Acres	Copy data from FY 2022 application.	Same as on the FY 2022 application, or may add additional eligible acres.*
Table 2 – Other Federal Revenue	Copy data from FY 2022 application.	Use data from school year 2020-2021.
Table 3 – Acreage and Taxable Value	Copy data from FY 2022 application.	Use data from school year 2021-2022.
Table 4 – Tax Rate	Copy data from FY 2022 application.	Use data from school year 2021-2022.

*Please speak to an Impact Aid analyst before adding additional eligible acres. Not all Federally-owned land is eligible for 7002 grants.

How to Find a Copy of Your FY 2022 Application

1. Log in to IAGS. Select LEAs on the top blue menu.
2. Click on the name of your school district.
3. Select Applications (under the name of the school district). Click “View Application” on the row with the 7002 application for FY 2022.

The screenshot displays the Impact Aid Grant System (IAGS) interface. At the top, there is a blue navigation bar with icons for HOME, LEAS, SEAS, FEDERAL PROPERTIES, and USERS. Below this, a white header area contains the Impact Aid Grant System logo and the text "Connections for Federally Connected LEAs". A blue banner reads "Welcome to the Impact Aid Grant System, Lea Core!". Below the banner, a "Fiscal Year" dropdown menu is set to "2022". To the right, a link states "Training & helpful resources are available at: impactaid.ed.gov".

Below the fiscal year, there are five boxes showing key dates:

- Application Open: 10/1/2020
- Application Deadline: 2/1/2021
- Late Application Deadline: 4/2/2021
- Amendment Deadline: 6/30/2021
- Payments Made After: 10/1/2021

The interface is divided into two main sections for application status:

- 7003 Application Status**: 7003 Application(s) statuses for FY 2022. It shows a table with two rows: "Adams Co. School Dist. #14" with a "Start Application" link, and "Aiken County Consolidated School District" with a "7003 Application" link.
- 7002 Application Status**: 7002 Application(s) statuses for FY 2022. It shows a table with two rows: "Adams Co. School Dist. #14" with a "Start Application" link, and "Aiken County Consolidated School District" with a "7002 Application Review" link.

The application that you view in the system from the Applications page has been reviewed by an Impact Aid analyst, who may have fixed any mistakes your LEA made on the original submission.

Using FY 2022 application data

1. On the application, check the Supplemental Impact Aid Flexibility Act box at the bottom of page 1 indicating that you will be using FY 2022 data.
2. Fill out your application to match the FY 2022 application exactly.
 - a. Table one will be pre-filled for you.
 - b. For table three, you may upload the same required tax rate certification document as you did on the FY 2022 application. This document is on your FY 2022 Application page under Documents.
 - c. Don't forget to complete the signature task after editing the application.
